Re Comments on the Rockefeller Report

1. For your information, we supplied Mr. John French, Executive Secretary of Mr. Nelson Rockefeller's Committee, with two sets of comments on the Rockefeller Report. The first was some detailed information on specific raw materials problems dealt with in Chapter 4 of the report. These were handed informally to Mr. French on March 5th. In addition, we sent him the attached letter giving comments on the organizational proposals of the Rockefeller Committee.
